

# Workshop Russia- Moscow 2011

## Advanced class

Day 1: Making striking silver glass murrini

Making reducing silver glass murrini

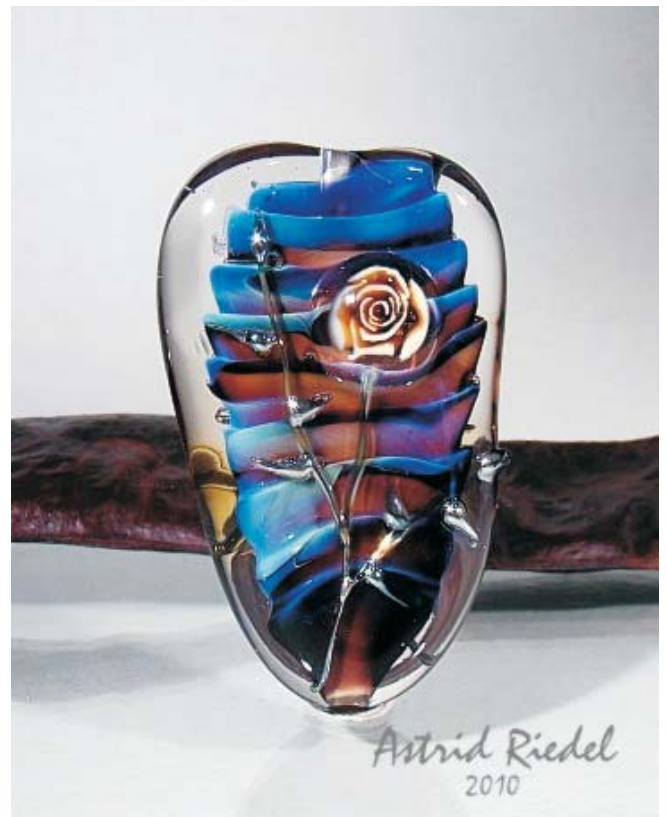

Learning to work with Phyce, Clio, Gaia,  
Kalypso and Triton silver glass.

We will learn to make multi layer lentil beads

decorate them with murrinis and hair fine stringer detail.

I will be showing you various "Pleating" techniques with  
the silver glass.

And as a bonus I will demonstrate how to apply rose  
murrini to the bead.

AR

# Workshop Russia- Moscow 2011

## Day 2

We will be making fun and colourful Wig Wags and applying them to the beads.

We will be making an Organic looking "pleated" bead with silver glass, using aventurine stringer and fine stringer work to decorate the bead. The 3rd bead will be organic with silverglass and awesome Peacock stringers and shards from "Joe Avenue"
